BRC-2661 - Yi Kwei Sze Schumann

€10.00

Yi-Kwei Sze was the bass singing the part of the *pere Laurent* in the mono Boston/Munch Berlioz Romeo, and quite an imposing figure he cut. He has a pure bass voice, agile if not a true *basso cantante* and his rendition of Schumann's *Dichterliebe* has been deleted a long time ago. Here it is, with the plus bonus of ideal accompaniments from Brooks Smith and in true stereo. A rarity and an important addition to the digital catalog.
